

Television Online - Anyplace, Anytime!

Do you need to catch the latest movies or news but are far away from a television? Have you missed an episode of your favorite soap opera? Log on to www.worldtvpc.com

Press Release Body: Worldtvpc, 23 August 2008; Do you need to watch television but are not at home? Want to watch the Wimbledon finals but none of the local broadcasters are telecasting it? Do you want to watch a scene from your favorite movie on demand? Do you wish to watch TV online? Worldtvpc is your salvation! Log on to www.worldtvpc.com, the single stop solution to all your internet TV needs.

This is definitely the father of free TV.

Internet TV has reached the peak of its evolution. The choice and depth available here is unrivalled. The site is neatly organized and finding what is needed from here needs hardly any effort. The channels available are neatly classified according to the genre as well as the country of origin. Some popular channels are also linked directly from the home page.

According to the genre, the classification is done as entertainment, music, children, education, sports, government, lifestyle, <http://www.worldtvpc.com> movies, news, business, religious, shopping, weather, webcam and adult categories. The popular countries are also listed and clicking on a name leads to a webpage listing the channels originating from the country chosen.

The top of the screen has tabs which lead to home, live sports, videos, full episodes, TV blog, TV forum, media players, TV software, TV toolbar, video widget and free TV database. The top right corner of the page also has a Google powered search box that helps to find movies and TV shows from Worldtvpc's vast database.

The right side of the screen has a scrollable module that contains direct links to the most popular movie videos. Any movie stream that is being accessed the most is displayed at the top of the list. This is really handy for people who are merely looking for something interesting to watch.

The most appealing feature of the site is the listing of online movies. These [href=http://www.worldtvpc.com](http://www.worldtvpc.com)>online movies can be viewed right from the web browser and do not need any additional tools. In other words, one can catch movie streams right from the web browser. Another major draw is the link to full episodes of popular TV shows. There is thus no longer any need to miss important appointments in order to catch the latest episode of Prison Break on TV. They can be watched at convenience at any time right from the PC. The easy access of news channels is also a great boon at times.

The channel listing provided by the website is very comprehensive and most importantly, this is free TV. This site is one of the few where one can <http://www.worldtvpc.com> watch TV online at absolutely no cost. Online movies are convenient to the core. They can be cached and then viewed offline at the user's prerogative.

Thus, the website is one of the most useful tools that a person can possess.

Immediate access to television via the internet is a very important step towards unifying the two worlds of television and internet. At a time when <http://www.worldtvpc.com> internet TV is slowly gaining popularity, the site www.worldtvpc.com offers a solution to the diverse needs of people all over the world.
